

# HIRS Site Registration

Site registration aims to reduce conflict among users and avoid overuse of the Scientific Research Zone.

Please fill in the information below and email to [hirs.scientific@uq.edu.au](mailto:hirs.scientific@uq.edu.au) along with a photograph of the deployed equipment.

<b>Responsible Researcher:</b>			
<b>Accredited Institute:</b>			
<b>Names on Permit:</b>			
<b>Permit Number:</b>			
<b>Deployment Date:</b>			
<b>Proposed Removal Date:</b>			
<b>Will your deployment/s remain in the field while you are off-island?</b>			
<b>GPS Coordinates for each deployment:</b>			
<b>Brief description of project:</b>			
<b>Description and number of deployment/s, description of deployment site/s:</b> (e.g. Total of x2 temp loggers. Each on a star picket, rope attached to float, cattle tag with Research Info, deployed on 1x Reef Flat Research Beach, 1x Reef Crest Blue Pools)			
<p>Please note that all equipment must be deployed under a current permit. All deployed equipment must be clearly labelled with the permit holders name and permit number, accreditation and appropriate contact name, along with any other information required under the conditions of that permit.</p>			
<p>Please be advised that deployed equipment that are not registered through this process, or not correctly labelled, can be removed from the field by the HIRS Scientific Officers without notification.</p>			
<b>Completed by:</b>		<b>Signature:</b>	

# HIRS Site Deregistration

Site deregistration aims to reduce impacts to the reef from abandoned scientific equipment and to manage available study sites for other users within the Scientific Research Zone.

Please fill in the information below and email to [hirs.scientific@uq.edu.au](mailto:hirs.scientific@uq.edu.au) upon equipment removal.
